

Press release: 24 April 2024

## Voyage Care acquires eight services from Cristal Care and Newfound Care

We are delighted to announce that Voyage Care have recently completed the acquisition of KDL Investments Limited, comprising of Cristal Care Limited and Newfound Care Limited. We welcome our new colleagues and the people supported across the eight services that have been acquired, to the Voyage Care family! The services include seven registered care homes and one supported living location; together they have capacity to support 64 people across South Yorkshire and Humberside.

The organisations' commitment to high quality across these services aligns with Voyage Care's purpose to deliver great quality care and support, and our shared values made this an ideal opportunity to increase our operational capacity in these strategically important geographies. We have worked very closely in partnership with the current owners to ensure a smooth transition for the people we support and our new colleagues.

Jayne Davey, Interim CEO, said: "We're delighted to welcome the Cristal Care and Newfound Care services to the Voyage Care family. This is an important next step in achieving our sustainable growth strategy and we look forward to empowering our new colleagues to continue to deliver great care and support, in line with our values and purpose."

Carl Morte and Steven Phillips, Directors of KDL Investments Limited, said: "We are really proud of the high-quality care and support the Cristal Care and Newfound Care teams provide. We have worked closely with the Voyage Care team in recent months. We feel confident they are the right choice to continue delivering excellent care and will welcome our colleagues to their wider business."

### Notes to Editors

**Voyage Care** is a sector leading specialist provider for people with learning disabilities, autism, brain injuries and complex needs. Its highly skilled dedicated regional teams provide consistent, high-quality care and support to approximately 3,500 people across the UK in their own homes or registered care homes.

Voyage Care has more 'Outstanding' and 'Good' services in England than any other adult social care provider.

Walker Morris (Jo Stephenson) acted as legal advisors and Hazlewoods (Richard Dade) provided financial diligence advice to Voyage Care during this acquisition.
