Operating performance in line with expectations, the key highlights of which are:

- Quality ratings maintained at a market leading level, with 96% of services in England achieving a CQC rating of Good or Outstanding, and 100% of services compliant with the Care Inspectorate in Scotland and Wales
- Registered average occupancy was 94.4% compared to 93.6% in Q3 2019
- Community based care average weekly care hours increased by 17,300 hours, up to 104,900 hours

# Company Overview

We are the leading provider of Registered care homes, measured in terms of beds, with a growing presence in Community based care services for adults with learning disabilities and other related complex and challenging support needs across the UK. The vast majority of people we support have life-long conditions and high acuity needs, which have been assessed as either 'critical' or 'substantial' by Local Authorities and the NHS and therefore require on-going care services to help them look after themselves.

- We supported 3,487 people as at 31 December 2019, comprising 1,903 through our Registered care home division and a further 1,584 through our growing Community based care service division.
- The typical person we support in each of our divisions is between the ages of 18 and 65 and has high dependency needs. Our Registered care home division typically provides at least two support staff members for every three individuals. This level of support is reflected in our average weekly fee of £1,725 per person for the three months ended 31 December 2019. Our Community based care services division, as at 31 December 2019, delivered approximately 105,000 hours of care per week, including Focused Healthcare. The provision of support averaged approximately 66 hours per week per person at an average hourly rate of £17.00 for the last three months ended 31 December 2019.
- Our 'person centred' approach to care ensures that we deliver quality, bespoke care packages tailored to the complex, high acuity care needs of the people we support. Quality scores remain high, with 96% of services inspected achieving a rating of Good or Outstanding following inspection. In Wales and Scotland, all of our services are 'compliant' with their respective inspection regimes.
- With approximately 11,000 staff, we strive to meet the requirements of each person we support and develop bespoke care packages tailored to their needs.

## Our services

Our focus on quality of care services is core to all of our operations. The learning disability sector in which we operate is both highly regulated and fragmented. We are one of the few larger providers operating exclusively in this sector and specialising in providing care support for people with complex, high acuity support needs.

Our business is aligned into two divisions based on the type of setting in which care is provided; our Registered care home division where the home is directly Registered with CQC, and our Community based care services division where the Community based care office is Registered with the CQC and the care and support we provide is in the persons own home. Our business divisions complement the regulatory and delivery models of our services and provide flexibility to suit the needs of the people we care for. Our divisions are as follows:

- **Registered care homes**

We provided care to individuals in our 264 Registered homes as at 31 December 2019. We hold the freehold interest in 228 of our Registered homes and 6 of our Registered homes are held on a long leasehold basis (each with a lease period of over 35 years remaining), collectively representing 91% of our Registered homes by number of beds. At 31 December 2019 we had 2,020 beds in our Registered properties with an average of 8 beds per property, providing a personal environment compared to larger facilities operated by some of our competitors.

- **Community based care services**

Our Community based care services division operated out of 41 registered Domiciliary Care Agencies (DCAs) as at 31 December 2019. Typically, the people we support in our Community based care services division live in individual or communal accommodation provided by government agencies or Registered Social Landlords that are registered with the Homes and Communities Agency. Included within Community based care is Focused Healthcare (unless otherwise stated within this report), which supports young individuals living with their families who require specialist care or nursing.

# Presentation of financial and other information

## Financial data

This Quarterly report includes the condensed consolidated financial information (unaudited) of Voyage BidCo Limited and its subsidiaries for the three and nine month period ended 31 December 2019 (“Q3 2020” and “YTD 2020”) and 31 December 2018 (“Q3 2019” and “YTD 2020”), and the financial year ending 31<sup>st</sup> March 2019 (“FYE 2019”), prepared in accordance with IFRS, and accompanying notes.

The consolidated financial statements consolidate those of the Company and its subsidiaries. The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards as adopted by the EU (IFRSs), and the Company financial statements have been prepared in accordance with Financial Reporting Standards 101 (FRS101) ‘Reduced Disclosure Framework’ and the Companies Act 2006.

## Other financial measures

In this report, we may present certain non-IFRS measures, including cash conversion, EBITDA, EBITDA after non-underlying items, EBITDA margin, EBITDAR, EBITDAR margin, EBITDAR after non-underlying items, Unit EBITDA (each, a ‘Non-IFRS Metric’), which are not required by, or presented in accordance with IFRS. In this report, where applicable, the following terms have the following meanings:

- ‘cash conversion’ means EBITDA less maintenance capital expenditure divided by EBITDA;
- ‘EBITDA’ means earnings before non-underlying items, interest, tax, depreciation (including profit and loss on disposal of non-current assets) and amortisation;
- ‘EBITDA margin’ means EBITDA divided by revenue;
- ‘EBITDA after non-underlying items’ means EBITDA adjusted by the effects of certain non-underlying charges
- ‘EBITDAR’ means EBITDA before rent expense;
- ‘EBITDAR margin’ means EBITDA before rent expense divided by revenue;
- ‘EBITDAR after non-underlying items’ means EBITDA after non-underlying items and before rent expense; and
- ‘Unit EBITDA’ means EBITDA before overhead expenses, which we believe is a useful indicator of EBITDA on a divisional basis.

We believe that EBITDA, EBITDAR and Unit EBITDA are relevant measures for assessing our performance because they are adjusted for certain items which, we believe, are not indicative of our underlying operating performance, and thus aid in an understanding of profitability.

We believe that EBITDA is a useful indicator of our ability to incur and service our indebtedness and can assist certain investors, security analysts and other interested parties in evaluating us. We believe that EBITDAR is a common measure in our industry because it allows comparability across the sector for operations regardless of whether a business leases or owns its properties.

The Non-IFRS Metrics in this Report are used by different companies for differing purposes and are often calculated in ways that reflect the particular circumstances of those companies. You should exercise caution in comparing the Non-IFRS Metrics reported by us to such metrics or other similar metrics as reported by other companies. None of our Non-IFRS Metrics is a measurement of performance under IFRS and you should not consider those measures as an alternative to net income or operating profit determined in accordance with IFRS, as the case may be. The Non-IFRS Metrics do not necessarily indicate whether cash flow will be sufficient or available to meet our cash requirement and may not be indicative of our historical operating results, nor are such measures meant to be predictive of our future results. Our Non-IFRS Metrics have limitations as analytical tools, and you should not consider them in isolation.

## Other data

Numbers of beds is presented in this report as at the end of the relevant period unless otherwise stated.

### *Occupancy*

Occupancy presented in this report represents the total number of beds occupied in our Registered division as at the end of the relevant period unless otherwise stated.

### *Occupancy rates*

The fee rates for our Community based care services division refer to average hourly rates charged to a funder per carer in a given period.

## Adjustments

Certain numerical information and other amounts and percentages presented in this report have been subject to rounding adjustments. Accordingly, in certain instances, the sum of the numbers in a column or a row in tables may not conform exactly to the total figure given for that column or row or the sum of certain numbers presented as a percentage may not conform exactly to the total percentage given.

The abbreviation 'nm' is used in this report in certain instances when a percentage variance produces a non-meaningful result (e.g. when the divisor in a calculation is zero).

# Management's discussion and analysis of financial condition and results of operations

## Key factors affecting our results of operations

### Revenue

Revenue in our Registered care home division is primarily driven by the number of beds occupied at any given time, together with the fee rates charged for occupancy of such beds. Revenue in our Community based care services division is primarily driven by the number of placements at any given time, together with the fee rates charged per hour for the delivery of care and support to those whom we support.

### Registered available beds and Community based care placements

Changes in the number of our available beds and Community based care placements can have a significant effect on our results because our capacity determines the maximum number of individuals that we can provide care to at any given time and the number of placements determines the number of care hours that we are asked to provide at any given time.

The average available beds and average Community based care placements for the given periods are stated below:

	Q3 2020	Q3 2019	YTD 2020	YTD 2019	FYE Mar 2019
Registered beds	2,025	2,074	2,037	2,048	2,038
Community based care placements	1,750	1,565	1,705	1,512	1,550
<b>Total</b>	<b>3,774</b>	<b>3,639</b>	<b>3,742</b>	<b>3,560</b>	<b>3,588</b>

### Occupancy rate

Our occupancy rates reflect the demand for our services, which is principally driven by our relationships with Local Authorities and NHS, reputation for quality, the ability to offer bespoke and complex care packages and flexibility to adapt the environment of our Registered homes to suit the individual needs of the people we support. In addition to occupancy rates, we formally monitor admissions, leavers and the progress of referrals for vacancies on a weekly basis in order to ensure that we efficiently manage our vacancies and maximise our earnings.

The average occupancy rates for the given periods are stated below:

	Q3 2020	Q3 2019	YTD 2020	YTD 2019	FYE Mar 2019
Registered	94.4%	93.6%	94.3%	93.1%	93.4%

### Fee rates

Fee rates depend on the individual needs of the people we support, the complexity of care required and the type of accommodation needed. The majority of our contracts are spot contracts and fees are agreed with Local Authorities and the NHS on an individual basis for each person we support.

Average weekly fees for Registered beds and the average hourly rate for Community based placements for the LTM are stated below:

			LTM December 2019	LTM December 2018	FYE 2019
Registered	£wk	£wk	1,725	1,691	1,702
Community based Care	£hr	£hr	17.00	17.08	17.11

## Key operating expenses

### Staff costs

Staff costs are our most significant expense and include wages and salaries, social security costs and other pension costs and cover the cost of support staff, senior support staff, service managers, regional management teams and central overhead staff costs comprising of our head office support functions. Our staff costs are affected by:

- our discretionary pay awards, which are periodic salary increases;
- increases in the national minimum wage and national living wage (both increased in April 2019);
- increases in national insurance rates;
- increases in wage rates for staff in other service industries (with which we compete for staff);
- legislation governing employee pensions, in particular legislation governing the automatic enrolment of employees into a workplace pension, also impacts on our staff costs as we are required to contribute to pension schemes for qualifying employees; and
- bonus schemes, being annual and other schemes operating at any one time.

- Staff costs (excluding overheads) for YTD 2020 increased by £9.7 million, or 8.4% to £125.6 million (which represented 62.9% of revenue) from £115.9 million (which represented 62.2% of revenue) for YTD 2019, primarily due to staff required to support the growth in our business (£4.5 million), increases in staff costs as a result of National Minimum Wage increase (£3.9 million), partially offset by lower sleep-in costs (£2.3m).

### *Agency costs*

Agency costs consist of expenditure on third party suppliers who provide Voyage with staff to carry out the day to day operations of the business.

- Q3 2020 property lease rentals remained consistent with Q3 2019 at £0.1 million.
- YTD 2020 property lease rentals increased by £0.1 million to £0.5 million, from £0.4 million for YTD 2019.

EBITDA is not a recognised performance measure under IFRS and may not be directly comparable with similar measures used by other companies. We define EBITDA as earnings before non-underlying items, interest, tax, depreciation, impairment, profit/(loss) on disposal of assets and amortisation. We believe EBITDA provides additional useful information on the underlying performance of our business. This measure is consistent with how business performance is monitored internally.

- Q3 2020 EBITDA increased by £0.9 million, or 8.4% to £11.6 million from £10.7 million for Q3 2019. This increase is due to the extra contribution generated from the growth in our business, operational efficiency and lower sleep-in costs, partially offset by certain inflationary pay rises and National Minimum Wage.
- YTD 2020 EBITDA increased by £2.9 million, or 9.5% to £33.3 million from £30.4 million for YTD 2019. ## Liquidity and capital resources

Our principal sources of liquidity are our existing cash and cash equivalents, cash generated from operations and any borrowings under our Revolving Credit Facility. Our principal uses of cash are to fund capital expenditures, provide working capital, meet debt service requirements and finance our strategic plans, including possible acquisitions. We believe that our operating cash flows and borrowing capacity under the Revolving Credit Facility are sufficient to meet our requirements and commitments for the coming year.

At 31 December 2019 and 31 December 2018, our cash balances were £22.2 million and £10.0 million, respectively.

Net debt as at 31 December 2019 was £228.2 million (31 December 2018: £266.0 million), comprising £250.0 million of borrowings under the Senior Secured Notes and Second Lien Notes, £nil borrowing under the Revolving Credit Facility (31 December 2018: £24.5 million), and £22.2 million of cash (31 December 2018: £10.0 million). Within the £22.2 million cash balance was £0.4 million of restricted cash (31 December 2018: £1.4 million) which is excluded from cash for the purposes of calculating the net debt. We have undrawn committed facilities of £45.0 million in the RCF.

Leverage as at 31 December 2019 (calculated as defined in the legal financing documentation) was 5.18x (31 December 2018: 6.65x). With the inclusion of IFRS16 lease liability, the leverage would have increased to 5.72x (31 December 2018: 7.21x).

## Property Analysis

At the 31 December 2019 the number of freehold properties held was 260, a net decrease of 37 properties since 31 December 2018. The net book value of the freehold properties was £314.4 million.

The reduction in freehold properties is primarily due to the sale of a portfolio of properties to Triple Point Social Housing REIT plc, with the initial sale of 36 properties completing on 9th September 2019, and a further 4 properties completed during Q3 2020. This sale is in line with the Group's strategy of encouraging and supporting third-party ownership of Supported Living properties, further reinforcing the existing separation of housing and support arrangements for the tenants in these properties.

We have increased our provision of properties supporting the Community division by 39, with capacity increasing by 190 since 31 December 2018.

Of our Registered properties, 88.0% of capacity is freehold compared to 7.9% of capacity in Community, which is in line with our strategy to utilise 3rd Party Capital to drive Community based care growth.

<sup>(2)</sup> 3rd Party owned Supported Living properties are leased to a Registered Provider such as a Housing Association and then rented to the people we support. Rent and maintenance are usually covered by Housing Benefit claimed by the people we support.

<sup>(3)</sup> Freehold NBV is not separately shown under DCA, as the Freehold 'DCA' offices operate from Freehold 'Community' Properties. Freehold NBV excludes assets held for sale and leasehold, encumbered and third party properties.

**Notes to the Condensed Consolidated Financial Statements (unaudited)**  
**For the 3 and 9 month period ended 31 December 2019**

**1 Reporting entity**

Voyage BidCo Limited (the Company) is a company incorporated in England and Wales. Its parent and ultimate holding company is Voyage Care HoldCo Limited. The consolidated financial statements consolidate those of the Company and its subsidiaries (together referred to as the Group). The principal activity of the Group is the provision of the high quality care and support services for people with learning disabilities, brain injury rehabilitation and other complex needs.

**2 Accounting policies**

These interim financial statements have been prepared in accordance with IAS 34 *Interim Financial Reporting*. They do not include all of the financial information required for full annual financial statements. The Group has prepared the condensed consolidated financial statements in accordance with IFRS applicable for the 9 month period ended 31 December 2019, together with comparative period data for the 9 month period ended 31 December 2018.

The comparative data for the 9 month period ended 31 December 2018 has been restated to reflect IFRS 16 which was not adopted until year end. The impact of the transition is summarised below:

<i>Statement of Financial Position</i>	<b>31 December 2018</b>
	<b>£'000</b>
Right-of-use asset presented in property, plant and equipment	16,638
Other debtors	(402)
Accruals	4,281
Provisions and liabilities	2,656
Lease liability	(22,560)
Movement in profit	141
Retained earnings	(754)

As a result of applying IFRS16, the Group has recognised depreciation and interest costs, instead of an operating lease expense. During the 9 month period ended 31 December 2018, the Group recognised £2,593,000 of depreciation charges and £475,000 of interest costs from those leases. Operating lease charges that would have been previously recognised under the previous accounting policy would have been £2,927,000 as a result there has been a net decrease in profit before taxation.

The financial information contained herein is unaudited and does not constitute statutory accounts as defined by Section 435 of the Companies Act 2006.

The condensed consolidated financial statements have been prepared under the historical cost convention except for certain financial instruments which are stated at fair value through the Statement of Profit and Loss. Non-current assets held for sale are stated at the lower of previous carrying value and fair value.

In preparing these condensed consolidated financial statements, management have made judgements, estimates and assumptions that affect the application of accounting policies and reported amounts of assets and liabilities, revenue and expenses. Estimates and underlying assumptions are reviewed on an on-going basis and any revisions to these estimates are recognised in the period in which the estimates are revised and in any future period affected.

The accounting policies applied in these condensed consolidated financial statements is consistent with the statutory accounts for the Company and the Group for the year ended 31 March 2019. In addition, the risks and risk management techniques identified in the statutory accounts for the Company and the Group for the year ended 31 March 2019 should be referred to in connection with these condensed consolidated financial statements as they remain applicable.

**Adopted IFRS not yet applied**

The following amended standards and interpretations have been endorsed by the EU but are not yet effective:

- IFRIC 23 Uncertainty over Tax Treatments (effective for reporting periods beginning on or after 1 January 2019);
- Prepayment Features with Negative Compensation (Amendments to IFRS 9) (effective for reporting periods beginning on or after 1 January 2019);
- Long-term Interests in Associates and Joint Ventures (Amendments to IAS 28) (effective for reporting periods beginning on or after 1 January 2019);
- Plan Amendment, Curtailment or Settlement (Amendments to IAS 19) (effective for reporting periods beginning on or after 1 January 2019); and
- Annual Improvements to IFRS Standards 2015–2017 Cycle – various standards (effective for reporting periods beginning on or after 1 January 2019).

The above standards and interpretations are not expected to have a significant impact on the Group's consolidated financial statements.

**Going concern**

The Group, of which the Company is a member, is funded through a combination of Shareholders' Funds, Unsecured Shareholders Loans, Senior Secured Notes and Second Lien Notes.

£215 million of 5.875% Senior Secured Notes and £35 million of 10% Second Lien Notes are due in 2023 and a Revolving Credit Facility of £45.0 million due 2023 was undrawn at 31 December 2019. The Directors are mindful of the due date of the external financing arrangements and recognise the need to review refinancing or capital structure options at the appropriate time. The Investor and Management Fixed Rate Unsecured Loan Notes are payable at the earlier of an exit or September 2024.

The Group's trading cash forecasts, which take into account reasonably possible changes in trading activities, show that the Group will be in compliance with all covenants and will have adequate funds to meet its liabilities, including debt servicing costs, for the foreseeable future.

The Directors therefore believe it remains appropriate to prepare the financial statements on a going concern basis.

(1) The significant reduction in freehold properties is primarily due to the sale of a portfolio of properties. This sale is in line with the Group's strategy of encouraging and supporting third-party ownership of Supported Living properties, further reinforcing the existing separation of housing and support arrangements for the tenants in these properties.

**12 Non-current assets classified as held for sale**

Management have committed to a plan to sell a number of properties through a sale transaction rather than through continuing operational use. Accordingly, the properties are being presented as assets held for sale. Efforts to sell the non-current assets have started and a sale is expected to be completed within one year from the date of classification.

As at 31 December 2019, the assets classified as held for sale are £2,459,000 (31 December 2018: £880,000 and 31 March 2019: £2,802,000).

**Fair value hierarchy**

The table below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

- Level 1: unadjusted quoted prices in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either as a direct price or indirectly derived from prices.
- Level 3: inputs for the asset or liability that are not based on observable market data.

*Security granted on the Senior Secured Notes, the Second Lien Notes and the Revolving Credit Facility*

The Company has guaranteed the amounts due under the Senior Secured Notes, the Second Lien Notes and the Revolving Credit Facility held in Voyage Care BondCo PLC. Security has been granted over all freehold and long leasehold property.

*Potential liability in relation to sleep in shifts*

In keeping with widespread practice in the social care sector, the Group operates at a number of sites where individual employees "sleep-in" overnight and are paid an allowance to do so.

In the past HMRC gave clear guidance that it did not consider sleep-ins to constitute "time work" for the purposes of NMW. However, the correct application of NMW regulations to sleep-ins was the subject of several legal decisions including that of the Employment Appeal Tribunal (EAT) in Royal Mencap Society v Tomlinson-Blake. From 1 July 2017 the government (BEIS) and HMRC changed their interpretation of the NMW regulations in relation to sleep-ins, and began to insist that sleeping time is "time work" for NMW purposes. The Group increased the allowance paid for a sleep-in shift from July 2017 to reflect this new interpretation of the regulations.

The Tomlinson-Blake decision, in which the Group was not directly involved, was appealed in the Court of Appeal in March 2018. Local authorities and other providers were also represented. In a major decision, the Court of Appeal ruled that for the purposes of the regulations on NMW, time spent on a sleep-in shift does not count as "time work" for NMW purposes. As a consequence of this, official guidance was again changed. Accordingly, in February 2019, consistent with the Court of Appeal ruling and the official guidance, the Group reduced the allowance paid for a sleep-in.

The Court of Appeal refused permission to appeal against its decision but a panel of Supreme Court judges subsequently granted Mrs Tomlinson-Blake permission to appeal. The Supreme Court gives such permission only in cases of public importance which it considers justify its attention. The appeal is listed to be heard in February 2020.

Notwithstanding that permission to appeal was granted, our legal advice is that it is unlikely that the Court of Appeal ruling will be overturned.

Given the grant of permission to appeal, the Board has decided that it is appropriate to make a contingent liability disclosure. Should the Court of Appeal ruling be overturned by the Supreme Court it is possible that the Group would be required to make backdated payments to its employees for a period of up to 6 years.

In the light of knowledge of how HMRC has dealt with these issues in the past (in particular, in introducing a non-statutory Scheme for resolution of issues in this area) the Board's judgment is that there is only a remote possibility that penalties would be imposed in those circumstances and therefore nothing has been included in this respect.

On this basis the Board estimates that a contingent liability up to a maximum of £16m should continue to be disclosed, consistent with the contingent liability disclosure made in the financial statements for the year ended 31 March 2019.
