Summerfield Court

At Summerfield Court, we provide support to up to 17 individuals with a brain injury.

Residents receive person-centred social and community based neuro-therapy. Support is based on rehabilitation techniques to increase independence, and progress is monitored through Goal Attainment Scaling. We're proud to be Headway approved, providing assurance that our support is of the highest standard.

As well as our team of highly trained staff, we have external therapy staff who come in to implement and review therapy programmes. This includes specialisms such as behavioural therapy, speech and language therapy, and physiotherapy.

The service contains 10 spacious en-suite bedrooms and 7 self-contained apartments that each have a kitchen, lounge, bedroom and en-suite. Individuals have the opportunity to progress from one of the bedrooms to the apartments as their skills develop.

"I love working here, love the people, the staff team, it's a happy place to be."

The vacancy

Summerfield Court has 10 bedrooms and 7 apartments in total. The service has many shared spaces, including an activity room, a therapy kitchen and a large enclosed garden. This gives everyone the opportunity to spend time alone, socialise with others or participate in therapy sessions.

We currently have a number of vacancies at Summerfield Court. The property is fully wheelchair accessible, so the vacancies would be suitable for all.

"I am happy with the service I get. I think it is very good and I am well looked after. The staff are very good and if I don't feel well they notice any changes and put it right. The home is nice, clean and friendly, with the staff doing a good job of looking after me and I am happy to be here."
